To Whom It May Concern,

I am currently enrolled at Harrisburg University of Science and Technology in Masters of Science Analytics program in executive weekend format. The executive weekend format means that I have to attend classes on campus one weekend a month during each semester and take classes online. I am enrolled as a full time student, which means I'm taking two classes a semester for total of 6 credits. One class is fully online and second class holds classes on campus one weekend a month and other classes each week online. I travel from Jersey City, New Jersey to Harrisburg, Pennsylvania each time I have an on campus class.

Sincerely,

Iva Jurkovic
